

# Step Exit Questions

Below are a list of questions to help you think about your own development as you come to the end of your time on the STEP training course.

-Please reflect yourself, and come to the final STEP session ready to share one or two key points with your huddle.

-Also, please plan to discuss with your personal pastor, within 1 month of the course ending.

1. What is at least one thing that has stood out to you from the course?
2. What is at least one skill or lesson learned that you have implemented? Has that changed anything for or about you yet- have you seen any fruit?
3. What have you struggled most with on the STEP course? Please feedback any suggestions to the course team, if there is anything we could do differently to help.
4. From the sessions covered, what areas do you need to do more study around? Are there specific resources you are looking for?
5. What strengths and weaknesses do you see in yourself? Are these the same or different to what others see in you?
6. What areas is God challenging you about, to find resolution or change?
7. What are the next steps to developing your leadership? Who will you make yourself accountable to take these steps?
8. Who can help/coach you with your leadership development?
